

Name : Girish Sanjay Sutrave

Assignment Subject : AWS Cloud Computing Essentials

Date : 25/09/2021

1. Create a user :

The screenshot shows the AWS IAM 'Add user' console. The first step, 'Set user details', is active. The user name is 'Arnu'. Under 'Select AWS access type', both 'Access key - Programmatic access' and 'Password - AWS Management Console access' are selected. Under 'Console password*', 'Custom password' is selected, and a password field is visible. The 'Next: Permissions' button is at the bottom right.

Add user

1 2 3 4 5

Set user details

You can add multiple users at once with the same access type and permissions. [Learn more](#)

User name* Arnu

[Add another user](#)

Select AWS access type

Select how these users will primarily access AWS. If you choose only programmatic access, it does NOT prevent users from accessing the console using an assumed role. Access keys and autogenerated passwords are provided in the last step. [Learn more](#)

Select AWS credential type* ☒ Access key - Programmatic access
Enables an access key ID and secret access key for the AWS API, CLI, SDK, and other development tools.

☒ Password - AWS Management Console access
Enables a password that allows users to sign-in to the AWS Management Console.

Console password* ☐ Autogenerated password
☒ Custom password

☐ Show password

* Required

2 : Attaching Managed Policy to the user :

The screenshot shows the AWS IAM 'Add user' console at the 'Set permissions' step. The 'Attach existing policies directly' button is highlighted. A table of managed policies is displayed, with 'AmazonS3FullAccess' selected. The 'Next: Tags' button is at the bottom right.

3 Login As a IAM User :

The image shows two screenshots of a web browser. The top screenshot is the AWS Sign-in page. It features the AWS logo, a 'Sign in' section with options for 'Root user' and 'IAM user' (selected), and a text input field for the account ID (12345678901234567890). A 'Next' button is visible. To the right is a large banner for 'AWS re:Invent' with the text 'Come build with us' and a 'Register now' button. The bottom screenshot is the AWS Management Console. It shows the 'AWS services' section with 'IAM' and 'Billing' listed under 'Recently visited services'. The 'Build a solution' section offers three options: 'Launch a virtual machine' (2-3 minutes), 'Build a web app' (6 minutes), and 'Build using virtual servers' (1-2 minutes). The right sidebar contains links for 'Stay connected to your AWS resources on-the-go', 'Explore AWS', 'AWS Free Digital Training', and 'AWS Certification'. The footer includes copyright information and links for 'Privacy Policy', 'Terms of Use', and 'Cookie preferences'.
